# Grow Tulips For Top Prices

Tulip bulbs are scarcer than ever this year. With Japanese bulbs shut out, and the supply of English bulbs in doubt, florists fortunate enough to have quality flowers grown from Vaughan's American Bulbs may count upon top prices in every market.

Vaughan's Tulips, grown in the Pacific Northwest, have won unquestioned leadership throughout the country. The American tulip industry is established for all time. The future of Dutch production is in doubt, but in due time the world demand can be met with tulips grown in the U. S. A.!

We strongly urge immediate purchase of your tulip requirements.

Narcissi produced a normal crop in the Pacific Northwest, but at increased expense, due to advancing labor and material costs. This has caused some advance in prices on top sized bulbs produced in this area, which are the only grade quoted in this catalog. Bulbs from other sections may be offered by others, but not by us.

## A Beautiful, Practical, Paper White Display

Paper White Display Box, 10x20 inches, Holding 100 Transparent Bags

100 Transparent Bags, each holding 3 bulbs, 15-16 ctm., (300 bulbs)	Sold out

EVERY customer who enters your store is a prospect for a sale of Paper White narcissus bulbs. Here is a carefully designed, thoroughly tested method of displaying and selling them at a minimum of trouble and expense and the maximum of profit.

Florists cannot afford to sell inferior bulbs. Vaughan's bulbs of 13-14 ctm. circumference and up are of flowering size and highest quality. Three bulbs are enclosed in a transparent bag which permits complete inspection, but prevents picking over of the individual bulbs, injurious handling and resultant waste. Every bulb we ship you can be sold at a profit.

Our Paper White display box, specially reinforced, decorated in black, red and green, will harmonize with your store display and sell its contents. It occupies 10 by 20 inches space, and one filling provides \$16 to \$25 sales at 100% profit. Why let chain stores get sales which should be yours?

# Important Cultural Data on Forcing Bulbs

From experience in our greenhouses and from observation at numerous florist greenhouses, Dr. Clyde Homan makes the following cultural recommendations:

1. The temperature in the **day time** in most ranges is not regulated and maintained correctly, especially is this true during seasons of dark weather. Often the temperature is allowed to go too high (some greenhouses visited were 85° in dark winter weather) with disastrous results in some cases, and with simply poorer quality resulting in the minor abuses. The disastrous results most frequently occur with Iris where dark weather and day temperatures over 60° prevail, the minor cases are most frequently seen in soft carnations, stocks, and snaps. It is safer to have high day temperatures in the early Fall when days are long, and clear weather generally prevails, than during the late Fall and early Winter, when the days are short and cloudy. This past winter a 3 degree increase in temperature, 65° compared to 68° (the variation from one end of a house to the other) **day temperatures** caused white tip in the variety Wm. Pitt Tulip during a particularly heavy spell of dark weather.

2. The most important factors in earliness of bloom of most bulbous items are the pre-planting treatments, that is pre-cooling method, harvest date, varietal factor, locality grown, prompt planting, and lastly heat of forcing where the item can stand heat.

We plant large Iris 10 ctm. & up Wedgewood 40 bulbs per 2 ft. x 1 ft. flat and the small bulbs less per flat. The small bulb needs more food, and more light to get as good a bloom as the large bulbs. The large bulb can endure more heat and adverse growing so it should be used for earliness of bloom, but for later blooming if grown properly the 9-10 ctm. will do just as well.

4. Do not grow Tulips with temperatures at any time over 65°.

5. Do not grow Iris with temperatures at any time over 60°.

We send complete cultural data with all pre-cooled bulb shipments, if you do not get yours on King Alfreds, Iris, or Tulips, just write us and we will forward same—there is no charge.

## ANNUAL FLOWER SEEDS FOR FALL SOWING

Antirrhinum

Calendula

Calliopsis

Candytuft

Centaurea Cyanus

Cosmos

Dianthus (Annual pinks)

Gilia Capitata

Gypsophila

Hunnemannia

Larkspur

Mignonette

Cynoglossum (Chinese Forget-me-not) Poppy Shirley

The earliness of bloom, and the economy of growing compared to plants started in the Greenhouse, makes the sowing of certain annuals in the Fall a good gamble for Florists who can use summer cut flowers. Larkspur is a particularly good item for this culture. This method avoids transplanting, which is often difficult with Larkspur. Early plants grow better due to cooler weather, and the early flowers do not shatter as easily as those blooming during the hot spells.

When you sow seeds of annuals in Fall, you imitate Nature's method. Practically all hardy annuals will produce stronger, sturdier plants with earlier bloom by this method. Do not be in too much of a hurry to sow. The ideal time is just before the ground freezes for winter. November 15th is early enough in normal seasons in the vicinity of Chicago and New York. If the ground has been prepared in advance, sowings can also be made during winter thaws. A cold frame makes a good place to grow.

A fine seed bed is desirable. No covering of any kind is needed unless there is danger of washing or from birds, in which case a light, loose covering can be used. Plant at half the depth used when sowing seed in Spring. Broadcast all small seed. South of the Mason-Dixon line, sowing should be delayed until the late February and early March thaws.

# Double Your Money on Tulips Sold From This Attractive Display

This beautiful display box, with 500 First Size May-flowering tulips, 50 each of ten named varieties, separately bagged, \$25.00; 1,000 Second Size May-flowering Tulips, 100 each of ten named varieties, separately bagged, and display box, \$40.00, f. o. b. Chicago or New York.

**B**E ONE of the few dealers who can supply tulips this fall! War has cut off the supply of many chain and department stores and lessened your competition. We cannot supply you with a definite group, as usual, but will send outstanding varieties which your customers will be delighted to buy. This business belongs to the florist, who can supply expert advice to purchasers. Our beautiful display box will be an ornament in any flower shop.

Vaughan's ten-compartment display box, staunchly made of 100 point cardboard printed in brilliant colors, will hold 500 bulbs, 50 each of ten varieties of our selection.

The varieties in this collection will be popular ones. You retail them for \$1.25 per dozen, and your profit equals your investment. After the display box and first collection have been bought, refill orders will be accepted for \$24.50 for 500 bulbs, 50 each of 10 varieties, in bags of 50; or \$48.00 for 1,000 bulbs, 100 each of ten varieties, 50 in the bag. As each compartment in the box holds easily 50 bulbs, it is convenient to transfer the entire bagful to the proper bin when the latter is empty. This prevents mixtures and loss of bulbs.

## Counter Space Needed, 13x29 Inches.

The display box with its garden design printed in brilliant colors, occupies very little space on your counter. It is an ornament to any store. It solves the problem of offering bulbs for sale in the retail shop, without danger of mixing varieties, and losing stock.

A FIELD OF VAUGHAN TULIPS IN OREGON

# Tulip Outlook

The supply of tulips available for planting in the United States this fall may be summed up as follows:

American grown bulbs—some increase over last year.

British grown bulbs—considerably fewer, but better quality.

Japanese bulbs—none at all, we are glad to say.

American production is expanding, but there is still some question as to the size of the harvest, chiefly because of labor difficulties. As this catalogue goes to press, only half of our crop in the Pacific Northwest has been harvested.

We estimate the increase in American production to be no more than enough to offset the drop in imports from Great Britain. The arrival of the latter will always be in doubt, until they are safely on our shores. As we go to press our first shipment is on the water.

Lacking all Jap bulbs, which no one will regret, the total supply is likely to be less than last year, so we advise our customers to order early and make sure that you have tulips to sell next spring. Top prices in an undersupplied market are practically certain.

VAUGHAN'S CROFT LILIES

## Vaughan's Croft Lilies Are Sold Out

Vaughan's American grown lily bulbs have been in such demand with the trade that our entire stock of 250,000 bulbs has been sold on advance orders and we have none to offer in this catalogue.

The entire American production, as yet, equals only a fraction of the number required to replace the Japanese bulbs which are shut out by war, and which may never again be acceptable to the American public, even when peace returns.

There is a bright side to this picture, however, and it shows two highlights: One, the high quality of American lilies, which have been proved to be much superior to those imported formerly from Japan; the other, the rapid increase in American production which is taking place.

The crop this year was much greater than last; and each year in the future, we have reason to expect, production will pyramid, so that it will not be long before the florists of our country have an ample supply of better bulbs than were enjoyed before the war.

Vaughan's Seed Store has been in the forefront of American lily production for many years, and has contributed to the improvement of growing and handling methods, to which this new industry owes its success. We shall expand our own growing operations as rapidly as possible, and give every encouragement to other careful growers, who prove themselves capable of producing the quality of stock which we must have for our customers.

The quality of Vaughan's American Grown lilies was proved by the blue ribbons which were awarded two baskets of Vaughan's Croft lilies exhibited at the Chicago Flower Show in the spring of 1941, one of which is illustrated herewith.

### LILIIUM FLORIDI

Bulbs of the Creole type, grown in Florida, have shown certain improvements over the Louisiana Creole lilies. At our New York branch, 47 Barclay street, New York City, a limited number of bulbs of the best type of Floridii are still on hand, and prices will be furnished in answer to inquiries mailed to that address.

## Latest on Lily Culture

At present, there are the following types of Lilies available to our knowledge—Creole, Croft, Davidson Kenyon or Early Western Forcing, Coos, Ace, Estate, Japanese Giganteum grown from 6-8 imported stock of 1940, Regales, Formos-anum, T 1, T 2, Stubby, Praecox (White Queen), Candidum, Harrisii, Florida Lily, Mexican Lily, and numerous types from seed of crosses of all the Lilies. The total Lily supply to normal requirements is from 8% to 10%.

A great deal of experimental work must be completed before we know even a good part of the possibilities of each type. A summary of general knowledge we believe true and possibly helpful to Florists in their purchasing and growing follows:

- (1) Creoles—grow below 65°. At least 80% of the entire production of Creole Lilies has become badly infected with mosaic, and when affected bulbs are forced, poor results are always obtained, and injury to the name of healthy stock is the result. There is great abuse in the state certification of stock, as the grower often uses a certificate obtained through one healthy field to sell his own or neighbor's diseased stock. A good Creole is an early blooming Lily that should have 3 to 5 flowers of very good substance on a fairly tall stem from a 7-9 inch bulb. It should be grown cool from 50° to 65°. It has been grown almost entirely for cut Lilies, except in the South where tall plants are desired.
- (2) Croft—start at 50° until 4 inches high, then grow above 60°. This is an ideal Giganteum type pot Lily of exceptional size blooms of excellent substance, a prolific grower which averaged 5-6 flowers from 7-9 inch bulbs last year at our greenhouses. It grows best at warmer temperatures, just like the Japanese Southern Giganteums of about the same season, possibly a week earlier.
- (3) Kenyon or Davidson Kenyon or Early Western or B-1. This is a mixed lot of black and green stem growing shorter than Croft and of earlier blooming date, also a little uneven in blooming because of mixture.
- (4) Coos and Ace. Both have blooms and habit very similar to Croft, but will yield 1 or 2 more blooms per same size bulb than Croft. Kenyon Davidson, or Giganteum.
- (5) Regales. Grown at a night temperature of 60° it will bloom in about three months; at constant temperature of 70° to 80° in 65 days from potting. These were grown after cooling the bulbs in cold storage 34° to 36°. Plunging pots outside until January 1st is recommended; they must have cold treatment before forcing.
- (6) Formos-anum. There are no large bulbs available in quantity and forcing qualities are not known definitely. It flowers abundantly, but the flowers are rather soft. Production is difficult because of its extreme susceptibility to mosaic.
- (7) Praecox (White Queen). When grown from seed to blooming, the plant is fairly dwarf and acceptable for a pot plant; however, when grown from a large bulb, it becomes 6 to 8 feet tall and unsightly. The substance of bloom is poor, about like a Harrisii, but the size of flower is good.
- (8) Candidum. No stock in quantity is available, as most stock was imported before the War. The bulbs are very susceptible to basal rot and are thus difficult to produce commercially. Foliage and flowers not of forcing quality.
- (9) American Grown Giganteum. This type was grown on the West Coast this past season by planting bulbs imported from Japan in the Fall of 1940. The stock is badly infected with mosaic which was always present in Japanese stock from 5% to 10%, but it spread to approximately 40% in some stock observed near Portland, Oregon.
- (10) Harrisii Lily. Grown in Bermuda, and is only available in normal quantities, and has been used in the past for a cut flower Lily. Considerable mosaic affected bulbs are present in all stocks observed.
- (11) The Florida Lily. This is a type very similar to Creole.
- (12) The Mexican Lily. There are at least three types in Mexico, one similar to the Floridii, one similar to the Creole and one with very short trumpet like Candidum.

In conclusion, we wish to warn florists to be careful to isolate mosaic types from clean types, as mosaic will spread by aphids in the greenhouse as well as the field. A great deal of experimental cold storage work must be done, and we are well under way on this work.

EVERY florist is facing the problem: What shall I grow to offer a lily hungry public for Easter, 1943? When lilies are available, millions will accept no substitute, and on retail prices the sky is the limit.

Here is the answer to this question for every florist, Vaughan's lilies from Shangri-La. Shangri-La, you remember, is a mythical mountain paradise; and we call our lilies by that name because we are not yet telling exactly where they were grown. But as to their quality and dependability, we can supply the following facts:

Shangri-La lilies are of the Floridii Creole type, of the highest quality.

They come to you with live roots packed in peat moss, like Croft lilies from the Pacific coast.

Accurately checked scientific tests have shown that they produce twice the bud count of ordinary rootless Creole bulbs of comparable size, because they start growing without check, or taking time to produce new roots.

Culture is like other Creoles, growing cool to keep down their height, and for best quality. The variety is naturally early.

All Shangri-La Bulbs are exceptionally high crowned.

The large sized bulbs, above 10 inches, are double crowned or better, and will produce a corresponding number of stems.

All bulbs will be shipped to you from cold storage after treatment to facilitate forcing. In ordering state whether you want bloom for January, Easter or later, so we can ship at the proper time, from Oct. 1 to May 1. Give us early orders, as the treatment in storage differs according to the forcing date.

### VALUE OF LARGE BULBS

Based on stems and flowers produced, large bulbs are worth as much as small per case, even though a case has fewer bulbs. Cases are standard Japanese size, and every one is tightly filled. Supply of small bulbs is limited.

# American Grown Hardy Narcissi

Northwest-Grown Bulbs From Which No Flowers Have Been Cut

## Big Demand for Double Nose Bulbs. So Order Early

HAVING our own Farms in Oregon and with a resident representative to make inspections of other fields each season when the bulbs are in bloom and again after the bulbs have been lifted and placed in trays in the warehouses our customers are assured of the best quality.

Quality of our stock has reached perfection through long study and adoption of the latest methods of culture.

Our bulbs are grown in Oregon, where narcissi bulbs grow best. All our stock has come from the same source in the last six years. The most modern implements are used so that bruising and disease are reduced to minimum. After digging, our bulbs are stored in temperatures that have been found most satisfactory by eminent English and Dutch experimenters. This temperature treatment hastens the flowering period and keeps the bulbs firm.

American grown narcissi are now not only grown as well as European, but they travel a shorter distance to you, minimizing the risk of heating and bruising.

## Narcissus Paper White Grandiflora

From the Finest Crop Harvested in Florida

**CROP IS VERY SHORT OF LARGE BULBS—ORDER EARLY!**

All our bulbs are grown from stock that originally came from the same Frenchman who supplied us before importation of foreign bulbs was prohibited. We caution florists against buying cheap bulbs of Paper Whites. You might get bulbs which have been left in the ground two or more years, and which show double crowns. Such bulbs will produce plenty of foliage, but will lack flowers.

The fields from which our bulbs come were inspected by our bulb man at flowering time, to insure true type; and a further inspection was made at harvesting time. The stocks have all been tested for forcing in soil and in water and the reports from such tests are that while flowering somewhat later than imported bulbs, results are as good.

# Miscellaneous Bulbs

## Giant Hybrid Amaryllis

One of the finest strains of Amaryllis we have ever seen. Flowers are immense, composed of broad, well-rounded, overlapping petals; of the most perfect form, ranging in color from pure white grounds with varied markings of rose, red and crimson to the richest self colors as scarlet, crimson, bright red, cherry and almost maroon.

Bulbs 2½ inches and more and are sure bloomers.

Make wonderful window displays.

### ANEMONES

One of the most showy flowers, good for cut flowers. They thrive in any soil except a very heavy clay. Set 10 inches apart, about ½ inch deep. Sunny location, plenty of moisture. **Special Mixed**, number one bulbs, per 100, \$2.00; per 1,000, \$17.50.

**Anemone St. Brigid Irish Champions.** The largest flowered strain of Anemones ever offered in the United States. Large, brilliant flowers in a wide variety of colors, over 90% full double. Number one bulbs, per 100, \$2.85; per 1,000, \$24.00.

### BRODIAEAS

**Capitata.** The California Hyacinth, has slender stems, 6 to 12-inch, high capped with a close cluster of violet blue flowers. Flowers hold up well, so should be good for Florists use. 100, \$3.00; 1,000, \$25.00.

## White Calla

(Aethiopica) Ready in September

Callas being natives of swampy regions grow to best advantage where there is an abundance of moisture, and are therefore very difficult to handle in the curing. Some growers practice **premature cutting off the tops**, expose bulbs to the sun, in order to make early shipment.

Our stock is **thoroughly cured in the ground** and **dried carefully** before they are packed. This means **later delivery** but better results can be obtained from such bulbs.

We caution forcers of Callas to water this stock sparingly after planting because Calla bulbs store up considerable moisture.

### CALOCHORTUS or MARIPOSA TULIP

These famous California flowers resemble a tulip in shape, and are of many colors, shades and markings. Try a few in a cool house. **Mixed, per 100, \$3.50; postpaid; per 1,000, \$30.00.**

THIS GROUP OF VAUGHAN'S GIANT AMARYLLIS WON FIRST PRIZE AT THE NATIONAL FLOWER AND GARDEN SHOW, CHICAGO, 1942

## Freesias—California Grown

### Crop Short

**Elder's Giant White.** Much demand for the flowers on all markets because of the size and strong stems. ½ to ⅝ in.: per 100, \$1.50; per 1,000, \$10.00.

**Golden Daffodil.** The yellow you must have with your planting of the White varieties. Color, clear, light yellow and orange blotch. Large flowers on strong stiff stem. ½ to ⅝ in.: per 100, \$1.35; per 1,000, \$8.50.

**Knife's Yellow.** A yellow freesia of unusual sturdy growth, tall straight stems. Flowers large and wide open. Great lasting qualities. Very prolific producer with several laterals, making it a valuable cut flower. ½ to ⅝ in.; per 100, \$1.50; per 1,000, \$10.00.

**Kokomo.** A very attractive lavender blue. Large open flowers and good long stems. A strong grower with plenty of laterals. We believe the finest lavender to be put on the market. ½ to ⅝ in.; per 100, \$1.50; per 1,000, \$10.00.

**PURITY—True Strain. White.** ½ to ⅝ in.: per 100, \$1.00; per 1,000, \$7.00.

**Sunset.** A flame orange, reminding you of the glorious sunsets of California. ½ to ⅝ in.: per 100, \$1.35; per 1,000, \$8.50.

**White Chief.** A new Giant White. Stems average 18 to 30 inches long; single flowers 2½ inches long. Can be had in bloom first week in January. ½ to ⅝ in.; per 100, \$1.00; per 1,000, \$7.00.

**Rainbow.** Mixed. ½ to ⅝ in., per 100, \$1.80; per 1,000, \$13.00.

## Baby Gladiolus

Years ago when the bulbs could be imported they were very popular. Limited quantities are now being grown on the coast so we can offer them again. Wonderful for forcing. Unsurpassed for bouquets, baskets and other uses.

**Blushing Bride.** White, pink and carmine flakes.

**Peach Blossom,** delicate pink.

**Pink Perfection,** fine pink.

**Spitfire,** brilliant reddish salmon.

Per 100, \$4.00; 1,000, \$35.00.

ANEMONE

RANUNCULUS

## Dog Tooth Violets

(Erythroniums)

If they had no other beauty than that of their richly mottled leaves, they would be well worth a place in the shady corner. Their flowers are 3 inches across, with stems 6 to 18 inches high. The colors run in delicate tints of white, pink, cream, bright yellow and rose. They are hardy in the coldest States, and while they are at their best in a loose, gritty soil, rich in leaf mold, they also thrive in woodlands, in shaded corners, or in the crevices of rockwork in shade.

**Americanum.** It produces in April, small, lily-like flowers, which vary through white, pink, bright yellow, rose, and cream. Bulbs should be planted about 5 inches deep. Per 100, \$3.50; per 1,000, \$30.00.

**Californicum** has large cream-colored flowers. Per 100, \$4.00; per 1,000, \$35.00.

**Citrinum** is rather more erect in habit, with flowers almost pure white with strongly contrasting deep citron. Per 100, \$4.00; per 1,000, \$35.00.

**Grandiflorum Robustum** is a superb species with flowers of the brightest buttercup yellow, leaves plain green. Per 100, \$5.00; per 1,000, \$45.00.

**Hartweggii** is as pretty as Californicum, with more yellow in the flower, and each flower on a separate stalk. Very early and stands much heat. Good for pots. Per 100, \$4.00; per 1,000, \$35.00.

**Hendersonii.** Like Californicum, but the flowers are a lovely light purple, with centers a deep maroon. Per 100, \$4.00; per 1,000, \$35.00.

**Mixed.** Per 100, \$3.50; per 1,000, \$30.00.

**Tingitana Wedgewood.** A seedling of the old favorite Tingitana that is just as early, but a much more reliable bloomer. Can be brought into flower in January, as it is the earliest of Iris. A great cut flower that has commanded enormous prices during the past few years. Light blue in color, 8-9 ctns., per 100, \$2.30; per 1,000, \$18.00; 9-10 ctns., per 100, \$3.50; per 1,000, \$30.00; 10 ctns. and up, per 100, \$5.00; per 1,000, \$42.00.

## English Iris

The English Iris are among the finest of all the Iris group coming into flower at the end of June. As a cut flower it is invaluable. The bulbs may be planted outside with a Winter mulching.

**Named Varieties.** Deep-blue, White, Light-blue, Deep-ruby flaked. Doz., 80c; 100, \$5.50. Mixed. Doz., 60c; 100, \$4.00.

## Leucocoryne Ixiodes Odorato

(Glory of the Sun)

Heads of large, fragrant flowers, blue with white center, carried gracefully on a wiry stem about eighteen inches tall. Culture same as freesias. This novelty has received much favorable comment, winning several European awards. Per doz., 85c; per 100, \$6.00

## MUSCARI (Grape Hyacinth)

Make good pot plants. Force easily for January blooms.

**Blue.** Pretty little spikes of dark blue flowers; an old garden favorite, used largely for small beds, edging, etc. Per 100, \$2.50; per 1,000, \$20.00.

**Heavenly Blue.** Sky-blue. Per 100, \$2.50; 1,000, \$20.00.

## ORNITHOGALUM

**Arabicum,** Star of Bethlehem, white with black base. Doz., 60c; 100, \$4.00.

**Thyroides,** pure white. Doz., 60c; 100, \$4.00; 1,000, \$35.00.

**Thyroides,** Flore Pleno, double white. Doz., 80c; 100, \$5.50.

## SPIRAEAS

For Easter and Mothers' Day Blooming

Freeze roots before potting.

Grow 90 days for Easter.

Grow 75 days for Mothers' Day.

Temperature 55 degrees.

Pink and white varieties of best named. Per doz., \$3.50; 100, \$25.00

## Ranunculus

With available flowers for early spring sharply reduced by the effects of war, the problem of every greenhouse owner is: What shall I plant in the benches usually devoted to material shut off by war?

Ranunculus offer an immediate answer to this problem. No other flowers available to the florist can produce such a riot of color. They make an immediate hit with the public, as every flower show proves. Market records show that supplies in the past have sold out quickly at good prices, and next spring they will have far less competition.

The important thing is to grow a good strain, and Vaughan's exclusive Victoria Hybrids have no rivals in abundant bloom, percentage of doubles, strong stems, and size of flowers. The color range embraces pink, yellow, orange, brilliant scarlet, vivid apricot and innumerable tints of these colors.

Culture is simple, and full directions will be supplied on request.

## Chrysanthemum CARINATUM RAINBOW MIXTURE

This wonderful new strain of Carinatum Hybrids contains a very wide range of various tones running through purple, scarlet, orange, salmon, rose, yellow, white, which are all beautifully zoned 'round the dark discs with small yellow edges. These zones differ both in color and size to a remarkable degree and comprise many different shades of deep purple, maroon, copper and orange. Trade pkt., 30c; ¼ oz., 60c; oz., \$2.00.

**Culture:**—For winter and spring crop sow mid to late September in light soil, pot up when large enough to handle and grow on until early November at 45 to 50 degrees night temperature. Set plants ten by ten inches, either in raised or solid beds (the former will flower very much earlier) and be sure to spray frequently for thrip and red spider which are the species' worst enemies. They should have at least four feet head room. Cut the flowers just before the centers carry pollen and place in cool water for at least six hours before shipping. During December dust lightly with 1 part fine sulphur and 4 parts hydrated lime.

### ONE OF OUR FLORIST FRIENDS WRITES US

"During the winters of 1939 and 1940 we grew about 500 square feet of Rainbow Chrysanthemum in raised benches in the greenhouse. We found these very acceptable to both our wholesale and retail trade; in fact so much so that we could name our price within reasonable limits. The flowers began to bloom during mid-February and continued to open well through April, after which they became smaller. We have cut flowers four inches in diameter with 18 inch stems. The range of colors, markings, splashing, etc., are both great and brilliant. When given ordinary care they will keep for from ten to fifteen days when cut"

## Coleus

**Glory.** A mixture of bronze, pink, apricot shades, cream, etc. A remarkably fine strain; it is unequalled for the beautiful form and coloring of its large leaves. Make splendid pot plants. ANNUAL LARKSPUR GIANT IMPERIAL

### Annual Larkspur

Larkspurs are one of the annuals which have been introduced successfully as a greenhouse cut-flower proposition recently. The ease of culture, short time of production and low initial cost of seed make this one of the best catch crops a florist can plant. Can also be sown outdoors just before freezing for early spring flowering.

To get satisfactory germination from Larkspurs in the hot summer, it is necessary to chill the seeds in an ice box for several days before sowing and place seed flats in basement or other cool spot for 2 to 3 weeks for germination to take place.

#### GIANT IMPERIAL OR BASE BRANCHING—4 ft.

A race of annual Larkspur of upright growth, branching from the base of plant, producing more and longer flower stems for cutting:

- Blue Bell.** Fine medium blue, deeper than sky blue, lighter than lilac.
  - Blue Spire.** Dark blue.
  - Carmine King.** Deep carmine rose.
  - Coral King.** Blush pink with a suffusion of coral.
  - Daintiness.** Delicate lavender.
  - Dazzler.** Rich scarlet.
  - Exquisite Pink Improved.** Salmon-pink.
  - Gloria Improved.** Rich deep rose salmon.
  - Lilac King.** New rich lilac fully double closely spaced florets.
  - Lilac Spire.** Beautiful lilac color.
  - Los Angeles.** Salmony scarlet.
  - Miss California.** Deep pink on salmon.
  - Pink Perfection.** Lively light pink.
  - White King.** Glistening pure white.
- Each of the above. Trade Pkt., 25c; ¼ oz., 35c; oz., \$1.00; lb., \$10.00.  
**Rosalind.** Rose with enough suffusion of salmon to create a most pleasing new shade. Trade pkt., 25c; ¼ oz., 35c; oz., \$1.00.

## Lilies

### Culture on Lilies from seed sent free with order

Sow the seed in flats in the greenhouse during October and November. The soil in flats consists of mixture of one-third each of fine sand, leaf mold and good soil. When the seedlings are large enough to handle they can be potted up in 2¼ inch pots and planted outdoors in a well drained location in May or as soon as the weather permits. These will start in to bloom from late summer on.

# Vaughan's Giant Pansies

Pansies have long been a favorite with us. We introduced the Swiss Giants to American gardens and named and introduced the lovely Canadian variety, Maple Leaf, several years ago.

**How to Sow Pansy Seeds.** Sow the seeds in a cold frame in light soil without any fertilizer. Cover the seeds very lightly with the same soil and keep moist. Shade the seed bed with cheesecloth or a muslin screen, and as soon as all the plants are up remove the screen. Or you may sow them in a large pot or seed pan.

To be sure of fine, strong Pansy plants, we suggest the following, applied as a top-dressing by the end of March or early April.

2 parts dried blood. 2 parts steamed bone meal. 1 part potash.

## GIANT MIXTURES

### VAUGHAN'S IMPROVED SWISS GIANT MIXTURE

The flowers of this strain are of enormous size, 3 inches and over in diameter. They are perfectly round with overlapping petals, borne on strong stalks well above the remarkably luxuriant foliage. Thick petals, of a rich velvety texture, give this strain of pansy the required substance so necessary to a perfect pansy.

The superb colors and color combinations—salmons, yellows, pinks, rich reds and blues, are their distinctive feature. Excellent for greenhouse culture. Trade pkt., 50c; 1/8 oz., \$1.00; 1/4 oz., \$1.80; oz., \$6.00; 4 oz., \$22.00.

### VAUGHAN'S SUPER SWISS GIANT MIXTURE

We have made a special mixture from three or four growers' stocks. Many of the flowers are five blotched. All the vivid colors of the type are represented in their enormous size and wavy and crinkly flowers. Trade pkt., 75c; 1/8 oz., \$1.30; 1/4 oz., \$2.20; oz., \$8.00; 1/4 lb., \$28.00.

### VAUGHAN'S DWARF SUPER SWISS MIXED

Special selection of Geneva Giants of dwarf habit. This type being shorter and more compact are more suitable to plant sales. The color range is as good as that of the Improved Swiss. Trade pkt., 50c; 1/8 oz., \$1.20; oz., \$8.00.

### VAUGHAN'S LONG STEMMED WINTER-FLOWERING MIXED RESELECTED

It has a much wider color range than other Winter-Flowering strains and has an excellent stem length, averaging better than 10 in. The bloom size is from 2 1/2 to 3 in. and the flowers are of very good substance and sweet scented. Sow in summer for Mid-winter blooming and give support early. One of our florist customers writes on March 27, '41.—"Your winter flowering pansies are one of our best paying crops." Trade pkt., \$1.00; 1/8 oz., \$2.00; 1/4 oz., \$3.60.

### VAUGHAN'S MAPLE LEAF GIANT MIXED

A distinct variety we introduced several years ago, having very large leaves and flowers of gigantic size, 4 to 5 inches across, perfectly round, of heavy substance in many attractive colors and color combinations. Trade pkt., 50c; 1/8 oz., \$1.25; 1/4 oz., \$2.25; oz., \$8.00.

### VAUGHAN'S SUPER MAPLE LEAF MIXTURE "CANADIAN GIANTS"

See Back Cover for Illustration in Color.

This strain is even finer than the preceding, with flowers of unbelievable size and texture, larger than in any other strain, the plants are also of compact growth and the extra large foliage is a rich, dark green. Trade pkt., 75c; 1/8 oz., \$1.50; 1/4 oz., \$2.65; oz., \$10.00; lb., \$120.00.

VAUGHAN'S LONG STEMMED WINTER-FLOWERING MIXED RESELECTED

### VAUGHAN'S GIANT MIXTURE

Large flowers of good substance in a complete color range in light and dark shades. Probably the best general complete high grade mixture obtainable. Trade pkt., 50c; 1/4 oz., \$1.45; oz., \$5.00.

### VAUGHAN'S INTERNATIONAL MIXTURE

Contains blooms of large size and good substance, in a great variety of colors and markings, including the Swiss and Maple Leaf Giants. It is one of our specialties which has been popular for many years and may be used either for bedding or cut flower purposes. Trade pkt., 50c; 1/8 oz., \$1.00; 1/4 oz., \$1.80; oz., \$6.00.

### GIANT SWISS SEPARATE SORTS

**Swiss Alpenglow.** Rich wine-red shades. Trade pkt., 50c; 1/8 oz., \$1.20; 1/4 oz., \$2.45; oz., \$8.00.

**Swiss Berna.** Dark violet-blue. Trade pkt., 50c, 1/8 oz., \$1.00; 1/4 oz., \$1.80; oz., 6.00.

**Swiss Blue (Ullswater. Thuner Sea).** The most distinct rich deep ultramarine blue with darker blotches. Trade pkt., 50c; 1/8 oz., \$1.25; 1/4 oz., \$2.25; oz., \$8.00.

**Swiss Coronation Gold.** Golden yellow, perfectly round flowers as much as 3 in. across, with slightly ruffled edges. This is the best pure yellow pansy. Trade pkt., 75c; 1/8 oz., \$1.50; 1/4 oz., \$2.75; oz., \$10.00.

**Swiss Luna.** Soft sulphur yellow, self without blotches, round substantial flower with frilled edge. A delicate and lovely color, varies. Trade pkt., 50c; 1/8 oz., \$1.45; 1/4 oz., \$2.45.

**Swiss Pure White.** Very free-blooming, large, well shaped flower. The best pure white pansy. Trade pkt., 50c; 1/8 oz., \$1.20; 1/4 oz., \$2.20; oz., \$8.00.

**Swiss Rhinegold.** Canary-yellow with dark blotches. Trade pkt., 50c; 1/8 oz., \$1.00; 1/4 oz., \$1.85; oz., \$7.00.

### GIANT MIXTURES

**Geneva Giant Mixed. Grown from Originator's Stock Seed.** A very fine strain. Trade pkt., \$1.00; 1/8 oz., \$1.40; 1/4 oz., \$2.60; oz., \$10.00.

**America, Ideal Bedding or Basket Pansy.** Good substance with wide color range. Free-flowering. Trade pkt., 50c; 1/4 oz., \$1.90; oz., \$6.40.

**Engelmann's Giant Mixture.** Dark and light shades, huge flowers, compact and early flowering. Trade pkt., 50c; 1/8 oz., \$1.20; 1/4 oz., \$2.20; oz., \$8.00.

**Orchid-Flowered Eldorado Art Shades.** A lovely type, including only pretty tints and combinations of cream, primrose, pale mauve and other delicate shades, the well formed flowers being exquisitely frilled. These delicate shades should not be mixed with stronger colors. Trade pkt., 50c; 1/4 oz., \$1.20; oz., \$4.00.

## Nasturtium

**Double Climbing Fragrant Varieties.** Sow seed in late summer and give support early. Like cool nights and considerable water. Their bright flowers of spicy fragrance will come in handy during the winter months.

**PRIMULA—Giant Malacoides Snowflake**

Has flowers of the purest shimmering snow white one can imagine. Its beautifully formed 1-inch florets adorn the stately stems like glistening jewels sharply high-lighted by the lush green foliage. Trade Packet (about 1,000 seeds), \$1.00; 1/64 oz., \$2.00.

**Primula Giorgis**

(This is a cross between Primula Malacoides and Primula Chinen-sis Fimbriata.)

The flower formation is that of the Chinese Primrose, while the short compact thick foliage reveals the Malacoides blood. Finely fringed, double rowed, single flowers 1 1/4 inches in diameter. Dark green foliage. The color is a strong carmine rose with a strong yellow center. Trade pkt., \$1.50.

**Primula**

**Eriksson's Malacoides (Baby Primrose)  
(ORIGINATOR'S SEED)**

Recent improvements in this Baby Primrose class have made them indispensable for Florist's use. September sown seed will produce nice plant for Easter and Mother's Day.

**RIVERSIDE STRAIN**

This is the newest strain, flowers are larger; stems are heavier; foliage is stiffer, more upright and heavier. Flowers have more substance and last longer. About two weeks later in blooming. This type does not "crop" in and gives a longer period in which to sell plants.

**Eriksson's New Red** (1942 Introduction). A very unusual salmon-red, particularly suited for Valentine combinations. Highly recommended.

**Glory of Riverside Improved.** A true rose pink, free bloomer with large flowers and robust grower.

**Lilac Beauty.** Pure light lilac, 100% even color when blooming and a delight to work in combinations.

**Peachblossom.** Deep peachblossom pink.

**Riverside Red Rose.** A brilliant red rose of very even color from start to finish.

**White Giant.** An exceptionally strong grower, large pure white flowers which may be used in combinations instead of Hyacinths.

Each of the above: 500 seeds, \$1.00; 2,000 seeds, \$3.00; 6,000 seeds, \$8.00.

**Eriksson's Special. Mixture.** 800 seeds, \$1.00; 2,000 seeds, \$2.00; 6,000 seeds, \$5.00.

**New Baby Improved.** Glowing deep pink. 800 seeds, \$1.00; 2,000 seeds, \$2.00; 6,000 seeds, \$5.00.

**New Giant Primula Malacoides**

**Double Fairy Jewels.** The color is a lovely rich rose pink, slightly deeper in the center than the outer or older petals. The strain comes 90% to 95% double from seed. Trade Packet (about 1,000 seeds), \$1.50.

**Enchantress.** A beautiful, soft salmon rose. The well rounded, beautifully formed flowers are 1/3 to 1 inch in diameter and produced in unbelievable profusion. A well grown plant will have 50 or more heavy stemmed spikes. Trade Packet (about 1,000 seeds), \$1.50.

**Sweetheart.** Flowers are a bright salmon pink bordered with a wide band of white softly flushed flesh pink with a touch of gold yellow in the center. The individual florets are one inch in diameter produced in many whorls on the long wiry stems. Trade Packet, \$1.50.

**Mixture.** Contains Snowflake, Enchantress and Sweetheart together with a good many others still in the developmental stage. Trade Packet (about 1,000 seeds), \$1.00.

**Ranunculus**

Sow seed from August to October in cold frame. Trade pkt. Oz. They come up in from 2 to 3 weeks. Bloom from June to August. Are suitable for beds and borders, fine for pot culture, excellent for cutting and bouquets. May be forced in greenhouse. After bulbs have formed, grow on in well manured soil. Height, 1 ft.

# Sweet Peas Early-Flowering Spencer Novelties

By the use of the star-symbol (★) we have indicated the varieties which, according to our experience, have proved the most satisfactory in the various colors and classes.

All our Sweet Pea seed sent to you will be treated with Cuproside (red copper oxide), unless ordered without this treatment. Treating seeds with Cuproside before planting prevents damping off and other diseases.

Sweet Pea seed treated with Cuproside **must not be soaked before sowing.**

**Nitragin** for inoculating Sweet Pea Seed, Garden Size Packet 10c. Sweet Peas should be inoculated with Nitragin before planting.

**Cavalcade.** A new rich golden cerise. A white ground selection of the popular Sequoia and much brighter in color as it holds to this light base, vigorous grower.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Celestial.** A soft and warm shade of cerise with salmon rose. Under artificial light a pleasing suffusion of coral is noted. Giant flowers on long stems.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Coquette.** Coral pink with amber and salmon shadings on duplexed flowers. A gorgeous new sweet pea for corsage or bouquet work. Oz., 45c;  $\frac{1}{4}$  lb., \$1.35; lb., \$4.80.

**Dawn.** Glowing deep chamois pink. The cream base and lively color make this pea superb under artificial light. The color is laid evenly on both standard and wings which gives a purity of tone greatly admired. Oz., 45c;  $\frac{1}{4}$  lb., \$1.35; lb., \$4.80.

**Evening Star.** Sturdy grower with a heavy stem, holds its buds well even through the dark days of winter. Flower a warm Christmas Red and can be in crop for Christmas and through January. A favorite in the Eastern markets.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Fiesta.** Brilliant orange cerise. A strong self color almost deep enough to be an orange scarlet. Vigorous grower, definitely sunproof.  $\frac{1}{2}$  oz., 25c; oz., 45c;  $\frac{1}{4}$  lb., \$1.35; lb., \$4.80.

**Gardenia.** Fragrant velvety white flowers, ruffled and duplexed. An easily grown white seeded variety; especially well suited for cut flower production.  $\frac{1}{2}$  oz., 25c; oz., 45c; 4 oz., \$1.40; lb., \$4.80.

**Geranium.** Warm colored salmon cerise, the salmon coloring appearing as an overlay upon the clear cerise of both wings and standard.  $\frac{1}{2}$  oz., 25c; oz., 45c;  $\frac{1}{4}$  lb., \$1.50; lb., \$5.00.

**Hiawatha.** Deep rose self, flowers exceptionally large and bold faced, with a bit of white showing at the base of standard and wings.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.30; lb., \$4.40.

**Miss Liberty.** Rose carmine on white ground. A striking contrast of a pure white keel against a solid rose carmine background. Vigorous grower.  $\frac{1}{2}$  oz., 25c; oz., 45c;  $\frac{1}{4}$  lb., \$1.35; lb., \$4.80.

**Rhapsody.** Rosy lavender. Has a deep lavender base color that is enlivened by dainty rose pink tints. Under artificial lighting, it seems much livelier than other lavenders.  $\frac{1}{2}$  oz., 25c; oz., 45c;  $\frac{1}{4}$  lb., \$1.35; lb., \$4.80.

**Rhumba.** A glistening golden cerise, large flowered and deeply duplexed. Its sparkling golden hue increases the intensity and helps carry this self color right to the keel.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

★**Sequoia.** A rich golden salmon-cerise pea, frilled and wavy. The flowers are enormous, on long stout stems.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Signal.** A fine new red; the best of its color; more intense color than Pride. Oz., 45c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.40.

★**Snow Queen.** Pure white, black seeded, opens and retains white color.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Sparks.** Bright orange scarlet, large flower, daintily frilled standard with wide spread wings.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.20; lb., \$4.00.

**Sterling** is a large duplexed salmon rose with an abundant array of four and five graceful flowers on strong, heavy stems. Each flower is beautifully formed and of almost a self color, having only a trace of silvery-white in its base.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Tops.** A fine salmon rose. Beautifully duplexed flower; five and six flowers to a stem, vigorous grower.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

★**Treasure Island.** A sparkling golden orange, very large flowered and semi-duplexed.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

**Twilight.** A very vigorous grower. Highly productive. Long stems and extra large flowers. Color is a medium clear lavender, very much like Harmony, and will soon supersede Harmony with most growers.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.80.

**Vivian Zvolanek.** Clear deep carmine rose, long stemmed.  $\frac{1}{2}$  oz., 25c; 1 oz., 40c;  $\frac{1}{4}$  lb., \$1.25; 1 lb., \$4.00.

★**White Champion.** Best early-flowering white seeded white. Exceptionally long stems, carrying usually four flowers each.  $\frac{1}{2}$  oz., 25c; oz., 40c;  $\frac{1}{4}$  lb., \$1.25; lb., \$4.00.

#### SPRING-FLOWERING INTERMEDIATE

The spring-flowering type gives excellent flowers on long stems when the regular early-flowering types have given out. They also give a much heavier crop of flowers than the standard early flowering type and are highly heat resistant. Seed of the spring-flowering type should be sown from the middle or end of Oct. to Feb. in the greenhouse for flowering in spring and summer.

#### STANDARD VARIETIES

- Blue. Light Lavender. Lavender. Mauve. Rose-Pink.

# Greenhouse Plant Department

## CALADIUMS—Vaughan's Special Fancy-Leaved

Choice dormant bulbs for January and February delivery. Large variety named sorts. This is one of the most decorative plants for greenhouse growing, window boxes or show plants. Rich, ornamental leaves, handsomer than Begonias; marbled, veined and striped with white, pink and dark red.

Our mixture of named sorts is probably the best to be had. We have graded them especially for good size bulbs of the finest varieties.

We find an increasing demand for caladiums; pot plants sell readily from early spring until late summer.

# Vaughan's Peonies

5 of a Kind at the 10 Rate—25 of a Kind at the 100 Rate

Prices are F. O. B. Western Springs, Ill., packing charges to be added at cost.

WE HAVE an exceptionally large stock of our own growing. Strictly true to name, all in strong divisions, with from 3 to 5 eyes each.

The figures preceding the varieties are the rating given to them by the American Peony Society.

Peonies in established plantings need to be fed each Spring. A top-dressing of Vaughan's Plant Ration (5-8-7) well worked in will do wonders, but it should be applied early.

**Souv. de Mme. C. Chambard.** Large, perfectly formed flowers of coral-pink, tinted peach.

### Hybrid Tea Roses For Forcing

As Polyantha Roses are scarce this year, we would suggest you try forcing the Hybrid Tea varieties. Many Florists have found that the public prefers these, as they like a Rose to plant in the garden.

For complete list of Hybrid Tea and New Patented Roses, ask for our Spring Book for Florists, ready in December.

THE Best Grade Field Grown Roses. Each variety grown by a specialist using the correct method to produce the highest quality. We have listed only the varieties considered best, but we control large stocks of all the popular varieties and will be glad to quote you on your requirements.

PRICES listed are for two-year No. 1, field grown, dormant plants.

Five or more of one variety take the 10 rate; 25 or more of one variety take the 100 rate.

All prices are F. O. B., Western Springs, Ill., packing charges to be added at cost. Subject to change without notice.

## FORCING ROSES Polyantha and Baby Roses

PRICES of the following. Forcing Grade. Each 45c; 10, \$4.00; 100, \$36.00.

**Crimson Baby Rambler.** Still a favorite. Light crimson flowers in clusters of 30 to 40.

**Gloria Mundi.** New. Double, lasting flowers of glowing orange-scarlet, borne in large clusters.

**Golden Salmon.** Bright orange-salmon flowers in huge clusters. Blooms continuously.

**Ideal.** Decidedly an outstanding variety, flowers brilliant garnet-red, keeping their color well.

**Mrs. R. M. Finch.** Double soft rosy-pink flowers, two inches in diameter.

**Rosenelfe.** Unusually beautiful, silvery rose-pink flowers of Gardenia-like form. They are very double and about 2½ inches across.

**Triomphe Orleans.** Brilliant cherry-red, lasting in color; blooms profusely in trusses. Considered the finest of the light red Polyanthas.

### New Patented Roses

These "Patented Plants" are being handled under license from the patent owners. They are for resale at retail only at the established retail prices.

**Paul's Scarlet Climber.** Large, well-shaped flowers of a vivid scarlet-red that does not fade.

# Ornamental and Flowering Shrubs

OUR shrubs are nursery-grown and are transplanted every two or three years. They are nice, shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first class retail trade. They should not be compared to stock that is never moved from the cutting or seedling beds until sold.

Our Nursery is located at Western Springs, 15 miles west of Chicago on the C. B. & Q. R. R., two blocks south of 47th Street, on Wolf Road.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

**Warning—Prices on all nursery stock subject to change without notice. 5 plants of one kind supplied at 10 rate. 25 plants of one kind supplied at 100 rate.**

# CANNAS

Dormant roots ready for January 1st.

**Improved Florence Vaughan** Owing no doubt to a deterioration in breeding stock, plants distributed under the name of Florence Vaughan have for several years been decidedly smaller, and inferior in color to the original variety, introduced by us. Making a search for stock of the original quality, we found it in Europe, and have propagated from carefully selected specimens to produce the improved type offered here. Giant flowers of vivid golden yellow, sprinkled with fine red dots, are borne on strong 4-foot stems. In our judgment, the best of all yellows. Per 100 Per 1000  
Green foliage.....10 for \$1.00 \$7.00 \$60.00

**King Humbert** 4-FT. SCARLET FLOWERS, BRONZE LEAVES, GREATEST FAVORITE TODAY. This remarkable "Gold Medal" Canna has been the sensation of the past nine years. It is a cross between the orchid-flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other, and the handsome broad, tropical foliage. Dormant roots.. 3.75 32.50

**Yellow King Humbert** 4 feet. An orchid-flowering sport of the well known variety King Humbert. Has the same habit of growth as its parent; foliage a very dark green, with flowers measuring 5 to 7 in. across; individual petals 3 to 3½ in. in diameter. Color of flower a deep rich yellow, softly spotted and blotched with bright red. Some plants will occasionally give a scarlet or scarlet-striped flower, which we consider an improvement rather than a defect. Dormant Roots..... 3.75 32.50

**The President** 4 ft. In color a rich glowing scarlet with immense rounded flowers seven inches across when fully open, produced on strong, erect stems well above the large green foliage. Free-bloomer and strong grower. Dormant Roots..... 3.75 32.50

**AMBASSADOR.** 3½ to 4 ft. Considered an improved King Humbert. Bronze foliage; color poppy-red; very brilliant. Flowers are borne in immense trusses on strong stalks well above the foliage, the petals measuring 2 to 2½ inches across. Plant is very vigorous. Dormant Roots.. 4.50 40.00

**COPPER GIANT.** 3½ ft. Much admired in our Western Springs planting. Large attractive blooms of a coppery madder red in big clusters on stout stems; green foliage. Exceptionally free-flowering and stocky growth. If you do not know this variety, give it a trial.....10 for \$1.00 7.00 60.00

**HUNGARIA.** 3½ feet. Very compact, almost dwarf, and luxuriant growth. Leaves bluish green, never burn. Flowers La France pink. Dormant Roots..... 4.00 35.00

**LOUISIANA.** 6 feet. Green foliage; scarlet..... 3.00 27.50

# Vegetable Seeds for Victory Gardens

Every family which has a plot of fertile soil will be urged by the government to grow vegetables in 1943. The demand for vegetable seed packets, which doubled in 1942, may double again. Be sure you have them for sale. Vegetable packets in all our seed assortments will be substantially increased. Send in your contract for seed without delay; our assortments are limited in number, and first come will be first served.

## Red, White and Blue Display

We shall continue to use for 1943 the strikingly beautiful Victory Garden Display Rack designed in our national colors. The slogan on the lower panel will be changed to read "Garden for Victory with Vaughan's Seeds." The top panel will be red, the lower one white, and the sides and bottom will be blue. It makes a brilliant eye-catching combination and will give your store a patriotic atmosphere.

Design and construction of the rack will otherwise follow the model which has proved so satisfactory last year.

The illustration shows how it holds each variety where the customer can see it.

The dimensions of this rack are: 30 inches wide, 15 inches deep, on the floor. The height is 55 inches, nicely calculated to combine maximum visibility of packets, and convenient self-service, while at the same time it does not obstruct a clear view of the store, which many feel is important.

Your new rack will be light, yet strong, easily moved about. It is made in the modern manner, of heavy matboard, and comes to you brand new. One rack will hold \$100 worth of packets.

**Our New Packets.** All flower seed packets of 1943 will be 3¼ by 4½ inches, same size as vegetable packets, and all racks will be interchangeable, serving for either flower or vegetable seed.

**Brilliantly Colored Posters and Streamers.** Color sells everything now-a-days and nowhere is it more necessary than in selling the garden. Vaughan's posters are modern, artistic, brilliant. They will dress up your store and give it the atmosphere of spring, helping business in every line.
